Node js

PERSONAL PROJECTS

IP Patent (Marketplace) (10/2022 - 11/2022)
- Designing frontend and integrate it with Smart Contract

University Website using core PHP

Degree Verification System Using BlockChain
- *DVS will be based on BlockChain. The idea is to automate the degree verification system of HEC for the applicants, with the help of this system the applicants will not have to go through the difficult and time consuming procedure to get their degrees verified from the HEC and this will save them a lot of time and effort .*

CERTIFICATES
